

Master Table of Contents

Volume 1 – FEIS Text

Fact Sheet

Summary

Chapter 1 Project Purpose and Background

Chapter 2 Description of Proposed Action and Alternatives

Chapter 3 Air Quality

Chapter 4 Geology and Hydrogeology

Chapter 5 Terrestrial Plants and Animals

Chapter 6 Marine Habitat and Fisheries

Chapter 7 Noise

Chapter 8 Transportation

Chapter 9 Land and Shoreline Use

Chapter 10 Environmental Health and Safety

Chapter 11 Light, Glare, and Aesthetics

Chapter 12 Recreation

Chapter 13 Cumulative Effects and Interdisciplinary Analysis

List of Acronyms

Distribution List

Volume 2 – Appendices

Appendix A Geology and Groundwater Report by Terra Associates, Inc.
(included in DEIS and incorporated by reference in FEIS)

Appendix B Environmental Soil Sampling Memorandum by Terra
Associates, Inc. (included in DEIS and incorporated by reference in
FEIS)

Appendix C Mitigation Report for Contaminated Soils (included in DEIS and
incorporated by reference with Erratum in FEIS)

- Appendix D 2nd Addendum for 1998 Amendments to Comp Plan (included in DEIS and incorporated by reference in FEIS)
- Appendix E Ground Water Monitoring Results by Associated Earth Sciences, Inc. (included in DEIS and incorporated by reference with Addendum in FEIS)
- Appendix F Dock Assessment by Symonds Consulting Engineers
- Appendix G Dock Assessment by Reid Middleton
- Appendix H Dock Assessment by Peratrovich, Nottingham & Drage
- Appendix I Department of Ecology Fact Sheets
- Appendix J Eelgrass/Macroalgae Survey Report
- Appendix K Dive Survey Report, Dupont Barge-Loading Facility
- Appendix L U.S. Coast Guard Comments on DEIS
- Appendix M Environmental Noise Analysis

Volume 3 – Comments and Responses, Part 1

- Introduction to Comments and Responses
- Summary
- Chapter 1 Project Purpose and Background
- Chapter 2 Description of Proposed Action and Alternatives
- Chapter 3 Air Quality
- Chapter 4 Geology and Hydrogeology
- Chapter 5 Terrestrial Plants and Animals

Volume 4 – Comments and Responses, Part 2

- Chapter 6 Marine Habitat and Fisheries
- Chapter 7 Noise
- Chapter 8 Transportation
- Chapter 9 Land and Shoreline Use
- Chapter 10 Environmental Health and Safety
- Chapter 11 Light, Glare, and Aesthetics
- Chapter 12 Recreation
- Chapter 13 Cumulative Effects and Interdisciplinary Analysis
- Appendices

Volume 5 – Comment Letters, Part 1

Comments from Agencies

Comments from Vashon – Maury Island Community Council

Consultant Reports

Environmental Organizations, Citizen's Groups, and Private Companies

Volume 6 – Comment Letters, Part 2

Written Comments

E-Mail Comments

Handwritten Comment Forms

Table of Contents

Volume 3 – Comments and Responses, Part 1

Introduction to Comments and Responses	I-1
Role of Public Comments.....	I-1
How Comments and Responses are Organized in Volumes 3 and 4.....	I-1
Comment Letters and E-Mails	I-2
SEPA Requirements for Response to Comments	I-2
Comment Overview	I-3
Summary	S-1
Introduction	S-1
Proposal Objectives	S-1
Summary of Proposal and Alternatives	S-1
Significant Areas of Controversy and Issues to be Resolved	S-1
Environmental Setting	S-2
Phased Review	S-2
Summary of Impacts, Mitigation, and Significant Unavoidable Adverse Impacts	S-2
Chapter 1 Project Purpose and Background	1-1
1.1 Introduction	1-1
1.1.1 Why a Decision is Needed	1-1
1.1.2 The SEPA Process	1-9
1.1.3 Who is Preparing this EIS and Making the Decision	1-24
1.2 Overview of Applicant's Proposal.....	1-32
1.2.1 Applicant's Objectives	1-32
1.2.2 Applicant's Proposal	1-35
1.2.3 Other Permits Required for the Applicant's Proposal.....	1-37
1.2.4 Existing Permits	1-45
1.2.5 How Mitigation is Addressed in this EIS.....	1-46

1.3	Existing Site Characteristics.....	1-53
1.3.1	Geology/Mineral Resources.....	1-53
1.3.2	Topography.....	1-54
1.3.3	Vegetation.....	1-55
1.3.4	Land Use Designations and Zoning.....	1-55
1.3.5	Site Access and Utilities.....	1-55
1.4	Past and Current Mining Activity	1-55
1.5	Citations	1-58
Chapter 2	Description of Proposed Action and Alternatives.....	2-1
2.1	Introduction	2-1
2.2	Description of the Proposed Action	2-1
2.2.1	Scale of Operation	2-1
2.2.2	Clearing and Ground Preparation	2-8
2.2.3	Facilities and Equipment.....	2-11
2.2.4	Progression of Mining	2-22
2.2.5	Containment Procedures for Contaminated Soils	2-23
2.2.6	Trucking and Barging.....	2-30
2.2.7	Hours of Operation.....	2-33
2.2.8	Employment	2-35
2.2.9	Reclamation	2-36
2.3	Alternative 1 – Reduced Barging Hours, Scenario 1	2-45
2.4	Alternative 2 – Reduced Barging Hours, Scenario 2	2-46
2.5	No-Action Alternative	2-46
2.5.1	No-Action Alternatives under SEPA.....	2-46
2.5.2	Facilities and Operation	2-52
2.5.3	Containment Procedures for Contaminated Soils	2-55
2.5.4	Trucking and Barging.....	2-55
2.5.5	Reclamation	2-55
2.6	Citations	2-56
Chapter 3	Air Quality.....	3-1
3.1	Primary Issues	3-1
3.2	Affected Environment.....	3-1
3.2.1	Regulatory Overview.....	3-1
3.2.2	Existing Air Quality	3-2

3.3	Impacts	3-4
3.3.1	Would fugitive dust resulting from the project exceed regulatory standards at the property line or at nearby residential locations?	3-4
3.4	Adverse Impacts and Mitigation	3-16
3.5	Cumulative Impacts.....	3-22
3.6	Significant Unavoidable Adverse Impacts	3-22
Chapter 4	Geology and Hydrogeology	4-1
4.1	Primary Issues	4-2
4.2	Affected Environment.....	4-2
4.2.1	Information Sources.....	4-2
4.2.2	Geology.....	4-10
4.2.3	Surface Water.....	4-18
4.2.4	Groundwater	4-20
4.3	Impacts	4-45
4.3.1	Would mining as proposed affect recharge of the aquifer system or affect the availability of water to residents on Vashon/Maury Islands?.....	4-48
4.3.2	Would mining affect groundwater quality?	4-79
4.3.3	Would the mining activity breach an aquifer or otherwise impact adjacent groundwater wells being used by local residents?.....	4-87
4.3.4	<u>New Section:</u> Would the proposed mining cause saltwater intrusion to the freshwater aquifer?	4-90
4.3.5	<u>New Section:</u> Would the proposed mining activity create slope stability problems?	4-92
4.3.6	<u>New Section:</u> Would proposed mining cause surface water runoff to flow off the site?	4-94
4.4	Adverse Impacts and Mitigation	4-100
4.4.1	Significance Criteria	4-100
4.4.2	Measures Already Proposed by the Applicant or Required by Regulation.....	4-100
4.4.3	Remaining Adverse Impacts and Additional Measures.....	4-101
4.5	Cumulative Impacts.....	4-104
4.6	Significant Unavoidable Adverse Impacts	4-104
4.7	Citations	4-105
4.7.1	Printed References	4-105
4.7.2	Citations in Comments	4-105

Chapter 5	Terrestrial Plants and Animals	5-1
5.1	Primary Issues	5-1
5.2	Affected Environment	5-1
5.2.1	Threatened, Endangered, and other Sensitive Animal Species	5-3
5.2.2	Plant Communities and Habitat	5-13
5.3	Impacts	5-18
5.3.1	Would the project adversely affect a plant or animal listed or proposed for listing under the Endangered Species Act, or any other species listed by the state, tribes, or King County as sensitive?	5-18
5.3.2	What would the loss of existing madrone imply in terms of (1) regulations, (2) functional values of madrone forest on the site, and (3) regional distribution of madrone?	5-22
5.3.3	Over the life of the mine, what is the overall effect on habitat of reactivating high-production mining on the site?	5-32
5.4	Adverse Impacts and Mitigation	5-38
5.4.1	Significance Criteria	5-38
5.4.2	Measures Already Proposed by the Applicant or Required by Regulation	5-38
5.4.3	Remaining Adverse Impacts and Additional Measures	5-40
5.5	Cumulative Impacts	5-48
5.6	Significant Unavoidable Adverse Impacts	5-49
5.7	Citations	5-49
5.7.1	Printed References	5-49
5.7.2	Citations in Comments	5-50
